To accomplish this, Northvolt, Boliden, MindDig and Skellefteå would like to officially welcome all spouses, partners, and significant others searching for careers, along with the broader business community searching for talent, to Skellefteå's first Matchmaking Day.

This event will be a day of informative conversations between some of the region's largest employers and the business community, a dialogue with the talent searching for their next career, and networking and matchmaking opportunities for both talent searching for jobs and the business community searching for talent.

We welcome you to Skellefteå's inaugural Matchmaking Day!
